

## Pandora's Box Access Information

Pandora's Box is a comedy performance based on Greek mythology, focused around Pandora and Prometheus. The performance contains live music, dancing and stage combat.

Age recommendation: 6+

The performance is in two acts. Act 1 lasts approximately an hour. Then there will be a 20 minute interval. Act 2 lasts approximately 40 minutes.

As an outdoor performance there will be limited additional lighting. It will consist of floodlights and a festoon. These lights may flicker at moments but there will be no flashing or strobe.

The performers will be wearing microphones so their voices will be amplified. This will come from two speakers, one on either side of the stage. These will also play the sound design, and the amplification of the lyre - used for the live music.

The sound design may contain loud noises (including thunderclaps), but there will be no gunshots, explosions or dogs barking.

The performance contains stage combat. This consists of performers using wooden staffs to carry out choreographed movements. There is one toy bow and arrow used by a character. There is no other replica weaponry in the performance.

As the performance is outside, audience members are able to move around while the show is on. The performance space will be marked out with a rope and all audience members are requested to remain behind that for their own safety.

There may be moments where the performers talk to the audience, audience members are encouraged to respond to them as much as they would like. If you do not wish to interact with the performers then please sit further back from the performance space. No one will be made to interact if they do not wish to.
